

IBOTIX Staffing Operations CRM

Management Proposal & Product Blueprint

Objective: Build a centralized Staffing CRM where Interns, Recruiters, and Account Managers perform the same operational workflow while maintaining strict role-based access and executive reporting.

1. Organizational Hierarchy

All operational users share the same interface; the difference is reporting hierarchy and data visibility.

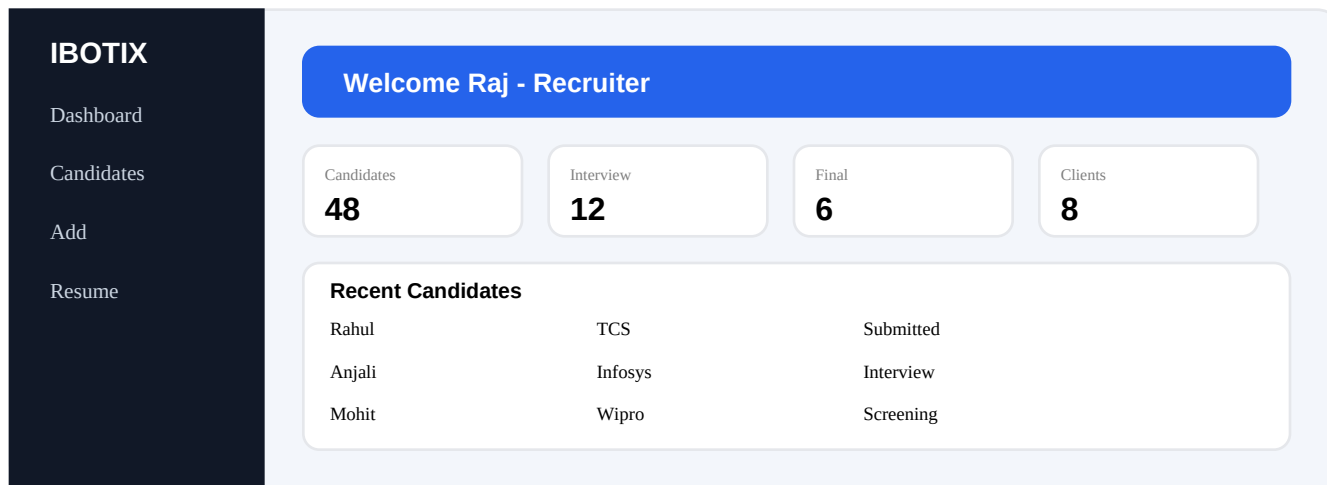

2. Operational Workflow

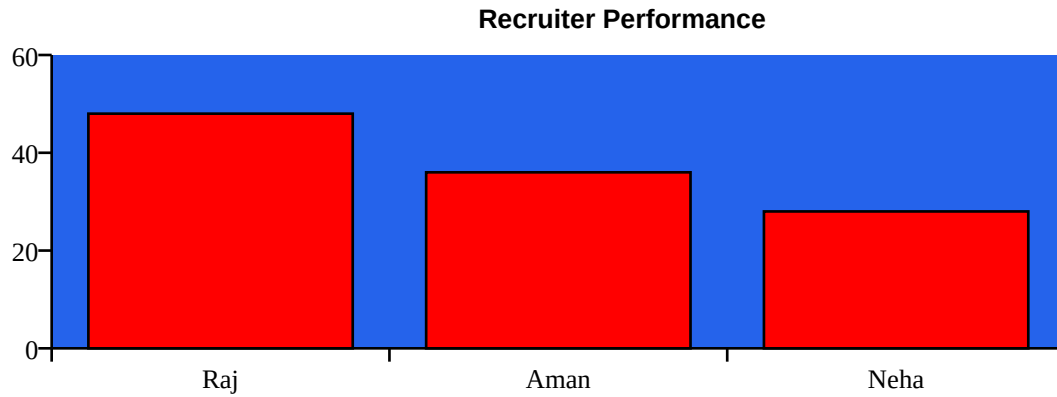

3. Role-Based Access Control

Module	Intern	Recruiter	Account Mgr	Head
Dashboard	Yes	Yes	Yes	Yes
Own Candidates	Yes	Yes	Yes	Yes
Add Candidate	Yes	Yes	Yes	No
Upload Resume	Yes	Yes	Yes	No
Remarks	Yes	Yes	Yes	No
Reports	No	No	No	Yes

4. Unified Dashboard Concept

5. Executive Analytics (Head Only)

6. Business Impact

- Centralized candidate database replacing Excel & WhatsApp tracking.
- Private dashboards for Interns, Recruiters and Account Managers.
- Resume repository with remarks and status history.
- Executive reports accessible only to Head/Admin.
- Scalable architecture ready for Power BI integration.
